

BM 5700

FOR YOUR THOUGHTEST JOBS

IT'S STRAIGHTFORWARD

BORUM

READY - SET - GO MARKING!

With the LineMaster computer you can pre-set line types, line widths and combinations of lines and simply adjust on the go.

This is all you need to make the linemarking straight, precise and meet the specifications of your line marking contract.

The LineMaster is a straightforward tool for controlling all line marking tasks and easy for the operator to use.

ALL THE POWER YOU NEED

The electrical system operates at 24V and by using the available auxiliary box, you can customize with your own extra equipment such as signs, extra work lights and more.

Work lights and taillights on the machine are LED type providing good visibility.

The high quality mobile controller, ensures reliable performance and makes it simple to troubleshoot any errors that may occur.

SEE THE STATUS OF THE MACHINE

All important machine functions are shown on the screen of the MachineMaster.

Sensors on the engine, compressor, hydraulic, and electrical systems conveniently follow the condition of the machine so you can act accordingly. Hereby downtime and costs are kept to a minimum.

A STRAIGHTFORWARD MACHINE

Change of filters for fuel, hydraulics and the compressor is user-friendly, and a special solution prevents spill when changing engine and compressor oil.

Refueling of diesel can be done from both sides of the machine and for tax purposes you can choose separate meters on the two fuel tanks.

The bead tank is divided and can hold two types of beads/friction material.

"TAKE THE STRAIGHTFORWARD WAY TO COMFORTABLE AND HIGH-PERFORMANCE LINE MARKING WITH THE BM 5700!"

UNMATCHED SOLUTION

For premium performance on power, exceptional driving abilities and serene quietness, choose the latest addition to the Borum line marking machines series: BM 5700 means quality in all aspects of the job.

DRIVING WITH COMFORT AND CONVENIENCE

Its good driving characteristics ensures high directional stability and a smooth ride via hydraulic propulsion. And is quite silent courtesy of the updated variable speed cooling system. Enjoy the ride!

SELF-PROPELLED AND DESIGNED FOR LARGE SCALE JOBS

Large material capacity ensures fewer stops for refilling, so you can confidently tackle long days and long stretches of road marking. The double speed wheel motors conquer challenging and hilly terrains effortlessly. Additionally, it's engineered to withstand high ambient temperatures, ensuring unwavering performance in any conditions.

ENVIRONMENTALLY FRIENDLY

The BM 5700 complies with the EU stage V emission regulations.

BORUM A/S - a global leading supplier of robust and high quality line marking machines.
